# CAPSULE COLLECTION “HERITAGE”

Siamo la nostra storia, una storia che si evolve ogni giorno, partendo dal patrimonio tramandato negli anni fino ad arrivare ai giorni nostri, reinventandosi, senza mai dimenticare le proprie origini.

Nasce così 'Xacus Heritage', una capsule collection che vede, come punto di partenza, lo studio e il ripercorrere della memoria tramandata dagli archivi aziendali, per dare corpo a dieci capi autentici nei dettagli e di sportiva raffinatezza. Una collezione che richiama i fit delle camicie outdoor americane degli anni 40'-50', caratterizzate dai volumi over che dettano questa tendenza, dal sapore totalmente rivisto in chiave contemporanea, creando un compromesso perfetto per un capo duttile e dal carattere forte e deciso nelle proposte, come il faldone sulla schiena con hanger o il carré tagliato e la mosca inserita sul fianco. I colli - prevalentemente button-down - vengono sviluppati anche nel mezzo francese e nel coreano con la possibilità di essere associati alle caratteristiche tasche doppie o singole, con e senza pattina.

Un'accurata selezione di tessuti che parte dagli Oxford in vari pesi, proseguendo con i denim e il tinto capo di gabardine e velluti, terminando in una grande varietà di flanelle dai diversi pesi.

Una palette di colori impattante che si sviluppa in mescole di materiali speciali realizzati in esclusiva dal cotonificio Albini per Xacus, rendendo il peso delle tradizionali flanelle più fluido e cascante per una migliore interpretazione di questo nuova vestibilità.

# CAPSULE COLLECTION “HERITAGE”

We are our story, a continuously developing story that starts with a legacy passed down over the years to arrive at our present day, constantly reinventing ourselves whilst never forgetting our origins.

This is how Xacus Heritage was born. The starting point for this capsule collection was a study and exploration of the company archives to give shape to ten new, authentic shirts with casual sophistication and many new details. The collection's silhouette evokes the fit of the famous American shirt of the 1940s-50s, characterised by oversize volumes but reinterpreted in a completely modern key, creating a perfect compromise of flexibility and a strong and decisive character in the selection, seen for instance in the rear box pleat with a hanger loop, the split yoke and the fly placed laterally. The collars - mainly button-down - are also available in semi spread and mandarin with the option of being paired with the characteristic single or double pockets, with or without flap.

An accurate selection which begins from the Oxford of different countries, continuing with denims, dyed gabardine and velvets, concluding in a great variety of different weights of flannels.

An impactful colour palette developed on the combination of special materials realised exclusively for Xacus by the Albini cotton mill, enabling a lighter, better draped fit for an improved interpretation of this new wearability.
